The Radiant C700R add a timeless elegance to any home . This model is fitted with the unique Chazelles Dual opening door system . The retractable door disappears out of view for a true open fire burning . When closed the unit reverts to the efficiency , energy saving advantage and safety of a slow combustion wood heater . The C700R proposes all the features of the Radiant range , the highest quality standard at an affordable price. Offering endless possibilities in fireplace design this superb fire box features perfectly in a corner or along a wall to create a stunning focal point in your home .
